

Cloud Computing

Summer Term 2017

Tutorial Session 2

Anton Gulenko

Marcel Wallschläger

Complex and Distributed IT-Systems

anton.gulenko@tu-berlin.de

marcel.wallschlaeger@tu-berlin.de

Organization

- One more tutorial session after today: 03.07.
- You don't need the AWS accounts anymore - make sure to shut down the VMs and optionally delete your account.

Project Assignment 2

- Due: 02.07.2017 23:59
- Summary:
 - Benchmark the OpenStack cloud operations
 - Get familiar with the OpenStack orchestration tool Heat
 - Write and test an advanced Heat template
- Submission
 - Through ISIS
 - One single PDF file containing text, plots, code snippets
 - Format of the PDF is not relevant, but include your group number and names on top

OpenStack Heat
